

Mini Bag

Instructions:

1. Print off the mini bag twice from your cd.
2. Cut on solid lines and score on broken lines.

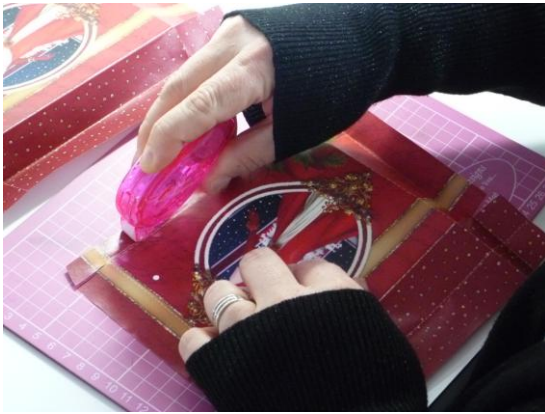

3. Don't forget to snip the solid lines at the top as these make it easier when folding the top down.

4. Reinforce all your score lines with a bone folder.

- Put double sided tape along the small tab on one side and attach to the other as shown.

- Do the same to the other side.
- Working on the base, put double sided tape on top of the small tabs on each side. Fold over 1 of the long tabs to stick on top.

- Run double sided tape on the underneath of the long tab and attach it to the other as shown.

9. Gently push the base into shape as shown.

10. Turn your bag the right way and tuck in the tabs at the top as shown.

11. To finish, punch holes in the marked spots. Thread ribbon through the holes and decorate your bag.
