

Topper Candle

Materials:

Plain Candle
Paper
Tissue Paper
Cello tape
Baking paper

Basic Equipment:

Trimmer/craft knife
Scissors
Double sided tape
Heat Tool

Using the cd rom print off your chosen image. Make sure you use the snapshot tool so you only print off one image on the sheet.

Using tissue paper cover the area of the printed image.

Tape the edges with masking tape or cello tape.

Ensure that the tissue paper is stretched over the printed image. Then print off the image again on the tissue paper.

Cut round the printed image on the tissue paper, leaving a white edge all the way round.

Position the image on the candle.

Cover the image with the baking paper.

Ensure that you hold the paper tight.

Using a heat tool, heat the image. You will see the colour stand out as you go across the image.

Gently peel away the baking paper.
